

Chicago, IL – August, 2013

Prospect City announced it has been engaged to provide pipelining services to Cumberland Gulf, located in Framingham, MA.

Cumberland Gulf is the parent organization of Cumberland Farms and Gulf Oil. The business is private, more than \$10B in size and has 600 stores and about 2,500 stations located in the NE US. Gulf Oil also owns 12 storage terminals.

“We are honored to be selected to identify and present top talent to this organization in support of a longer-term succession plan as well as key functional heads in oil trading desk management.” Stated Robert Stein, President of Prospect City. “We look forward to serving the company with these important ongoing projects.”

Prospect City is an infrastructure services provider to executive recruiting firms and corporate recruiting functions. The company provides software and recruiting services to identify and track leading industry talent for the purpose of succession, benchmarking and hiring.
